

# Fundamentals of Artificial Intelligence and Knowledge Representation – Module 4

Prof. Federico Chesani – 18th of July, 2022

Available time: 30 min.

- 1) The candidate is invited to present the notion of the cut “!” operator in the Prolog language. Moreover, the candidate should illustrate its usage through a very short example.
  
- 2) The candidate is invited to briefly introduce the Knowledge Graph paradigms, and which are the main differences w.r.t. the Semantic Web proposal.

# Fundamentals of Artificial Intelligence and Knowledge Representation – Module 4
